

# *Kangen Water*

THE SCIENCE, YOUR HEALTH,  
AND 100+ INCREDIBLE EVERYDAY USES

[ConsciousnessAndClarity.com](http://ConsciousnessAndClarity.com)

# WHAT'S THE BIG DEAL?

## IT'S JUST WATER... ISN'T IT?

Our bodies are made up of ~70% water, but just what kind of water are you made up of? Well that depends on the kind of water you are drinking.

And when it comes to your drinking water, you have many choices. Let's take a look at some of your options below.

Here's a quick YouTube video if you'd rather watch than read... [What's in YOUR Water? - YouTube](#)

### TAP WATER / CITY WATER

Tap water is cheap, it's easy, but it's loaded with toxic chemicals, heavy metals, sediment, and other nasty contaminants. Since 2008, there have been over 315 contaminants found in our tap waters- take a look at this list of the most common contaminants found in tap water... is this what you want to be putting in your body?

Aluminum	Chromium	Radium
Ammonia	Copper	Selenium
Arsenic	Fluoride	Silver
Barium	Lead	Uranium
Cadmium	Nitrates/Nitrites	Plus.....
Chloramine	Mercury	Bacteria, viruses
Chlorine	Perchlorate	and microbes

### REVERSE OSMOSIS FILTERED WATER

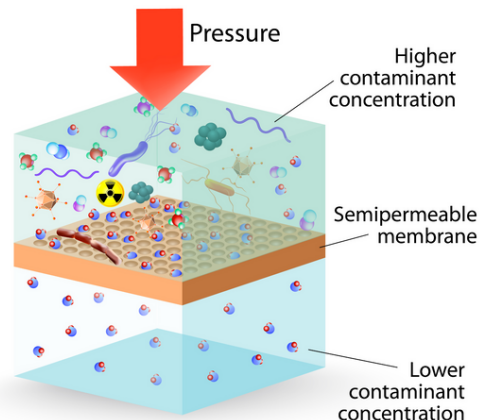

Reverse Osmosis filtration systems have been gaining popularity since we have start realizing what's in our tap water.

In rural areas with high bacterial contaminants, RO filter systems can be very beneficial... however for most homes in urban / city areas, the Reverse Osmosis filtration process strips both the bad AND the good components out of the water - filtering out beneficial minerals like calcium, potassium and magnesium, while many of the harmful contaminants that are smaller than the size of a water molecule simply pass through the RO membrane and into the filtered water anyway.

And what's even worse - 2-3 gallons of water are wasted for every single gallon of purified water produced through the reverse osmosis process.

Because it is stripped of all the beneficial a minerals, water processed through RO filtration systems is often referred to as "dead water".

## REVERSE OSMOSIS

# WHAT'S THE BIG DEAL? IT'S JUST WATER... ISN'T IT?

## **BOTTLED WATER**

In the US, bottled water is a \$7 billion dollar per year industry (2021). Because many of us think our tap water is bad, we turn to bottled water for a "better" alternative.

However, most of the bottled water options available are simply tap water that has been filtered using a reverse osmosis process, resulting in water that has been stripped of all beneficial minerals. That water is then "re-mineralized" - and inorganic versions of the minerals that were removed are added back in for "taste". These are things like sodium bicarbonate (baking soda), magnesium sulfate (epsom salt), and calcium chloride (used as a preservative and also used in fertilizers).

*When your water has added ingredients, it is just not natural.*

The bottling and storing process also leaves lots of tiny pieces of plastic in your water - known as micro-plastics, and I'm sure none of us actually want to be consuming these plastic particulates. Not to mention the extreme environmental damage being caused by the manufacturing, processing, and waste from all these single-use plastic bottles ending up in landfills and in our oceans.

*Bottled Water is simply not a sustainable solution.*

## **BOTTLED ALKALINE WATER**

Because of the expert marketing involved, people often think that bottled alkaline water is great for their bodies, and it does taste nice... but is it worth the hefty price tag? These bottled alkaline waters are simply tap water, that has been filtered using the reverse osmosis filtration process, and then in order to inorganically raise the pH level of the water above the neutral state of 7.0, higher levels of the inorganic chemicals like baking soda (as mentioned above) are added, thus making it "alkaline". Drinking this chemically created alkaline water has little to no proven health benefits, and in some cases can actually lead to a buildup of these inorganic chemicals within your body.

## **FILTERED WATER**

(Refrigerator Filtration Systems, Home Filtration Systems)

There are many different specialized filtration systems that do not use reverse osmosis - and they are designed to remove specific contaminants, without removing the beneficial minerals in your tap water.

These filters are often made of carbon and are great for basic filtration purposes - dirt, rust, and other larger sediment particulates, as well as many contaminants are easily trapped by these carbon filters, and the many different specialized options can be used to target specific contaminants in your area.

## **WHY WATER FILTRATION?**

A common misconception is that tap water treated by your municipality has already been filtered and therefore doesn't have any room to improve. On the contrary, tap water typically has plenty of room for improvement.

# A CLOSER LOOK AT WATER FILTRATION

With green initiatives, and sustainability efforts increasing, and contaminants becoming more and more widespread, home filtration systems are becoming a necessity.

## DOES THE TYPE OF FILTER REALLY MATTER?

Are you already using a filtration system such as Berkey, Britta, or a refrigerator filtration system?

Your filtered water may not be as clean as you think.

These systems can often lead to an increase in contaminants and chlorine-resistant bacteria and parasites such as giardia, cryptosporidium, and legionella and can often be much worse than the unfiltered tap water by itself.

## THE MULTIPURE DIFFERENCE

Multipure's carbon-block filtration products are setting the gold-standard for water filtration.

Their products include drinking water systems, shower filtration units, hose filtration attachments, and whole-home filtration systems, and are simply a must-have in every home.

**At an average cost of only .12 cents per gallon, Multipure is the future of water filtration.**

The Multipure Promise... Five decades of carbon block innovation allow Multipure to offer powerful, affordable, and long-lasting filtration systems and replacement filters, ensuring that your water always remains cleaner, healthier, and tastier.

## CERTIFICATIONS

NSF Certification involves rigorous testing, and is an assurance of quality, performance, and integrity. It states that:

- The system meets the contaminant reduction claims of the manufacturer
- The system is not adding anything harmful to the water
- The system is structurally sound
- Advertising, literature, and labeling are not misleading
- The materials and manufacturing process do not change

With numerous NSF certifications (43, 53, 401, P231), and the ability to remove over 95 different contaminants, including Arsenic V, Multipure is setting the gold standard for the industry.

## FILTRATION + IONIZATION

These Multipure filtration systems are highly recommended for use alongside Kangen Water ionizers to ensure the most healthy drinking water possible - but as a stand-alone option, they are still missing one major component... and this is what make's Kangen Machines so special. **ANTIOXIDANTS!!!**

# WHAT THE HECK IS KANGEN WATER?

## THE SCIENCE OF KANGEN WATER

***Water is the essence of life. No living being can live without it. So why do we drink stale, acidic water, full of chemical additives? Water that is terrible for our bodies. Not all water is created equal.***

Decades of engineering and science have gone into the production of Kangen Water ionizer machines and Enagic remains the market leader - setting the "gold standard" for the water ionizer industry, because the *quality* of their product far surpasses any of the competition.

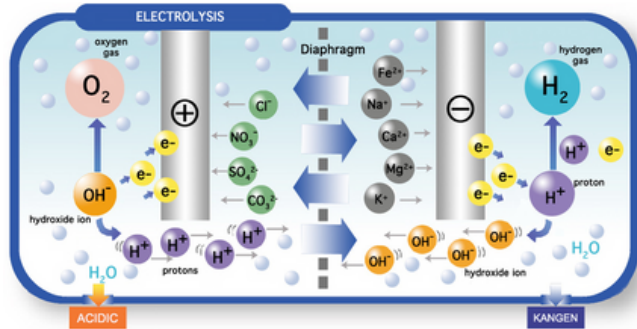

Kangen Water machines process and transform your water in two main different ways...

1) **Filtration** - Enagic has a standard carbon filtration system which filters out chlorine, micro-plastics and other harmful chemicals which can be found in your tap water. Depending on what the water quality is like where you are located, as well as the type of your source water; you can also order a range of pre-filters to get the most highly filtered water possible.

### 2) **Electrolysis** - Kangen's K8

Water ionizer machines have 8 solid titanium plates which are coated in medical grade platinum (which retails at over \$2,000 USD an ounce).

An electrical charge is passed through the water, which causes the dissociation of the water molecules, which then split to produce the following 4 components of Kangen Water: the antioxidant molecular hydrogen (H<sub>2</sub>, antioxidant), hydrogen protons (H<sup>+</sup>, acidic), hydroxide anions (OH<sup>-</sup>, alkaline), and O<sub>2</sub> (Oxygen gas).

## A LOOK AT pH AND ORP

Kangen Water has some incredible health benefits and many people all over the world have experienced amazing transformations in their mental, meta-physical, and physical health.

This is due to the **high levels of molecular hydrogen** and the ionized, alkalized nature of the water. These two properties have powerful anti-inflammatory characteristics with their effectiveness peer-reviewed in multiple medical journals. Kangen Water also has a high negative ORP (oxidation reduction potential) which means it's incredibly effective at combatting and reducing oxidation in the body. In fact, molecular hydrogen has therapeutic potential in over 170 different disease models, and is currently being studied as treatment options for many different oxidative stress related diseases. A simple search of "electrolyzed reduced water" on PubMed will generate a full list of relevant articles and studies.

**Electrolyzed reduced water offsets harmful free-radicals and reduces levels of oxidative stress** in the body. Diseases such as cancer, coronary heart diseases, and type 1 & 2 diabetes have strong correlational links with high levels of inflammation and an acidic diet (i.e. a caffeine, processed food and sugar fueled diet). Kangen Water's powerful natural ionized, alkalized properties help neutralize this oxidative stress and help to reduce inflammation in the body, thereby reducing the damage they can cause.

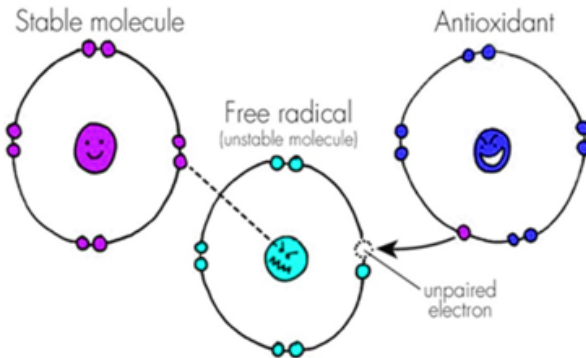

Our **blood's pH should be between 7.35pH and 7.45pH**, but due to the high levels of caffeine, sugar, processed foods, and alcohol we put into our body each day, we often maintain a very acidic diet. This means our bodies often have to do quite a lot of work to offset the acidity and to maintain that proper alkaline blood pH range. Kangen Water's high levels of molecular hydrogen, as well as the ionized properties of the water help our bodies combat acidity, oxidative stress, and metabolic acidosis. In addition, Kangen Water is more hydrating than regular tap water due to the elimination of acidic elements in tap water, the addition of high levels of antioxidants, and its changed osmotic pressure. This means it is able to provide increased hydration at a cellular level!

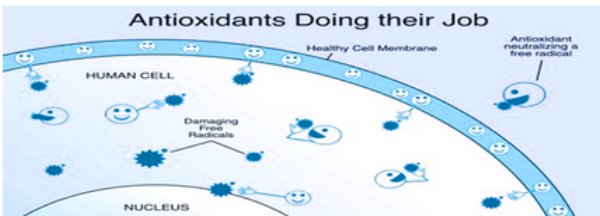

# WHAT CAN MOLECULAR HYDROGEN DO FOR ME?

Molecular Hydrogen is a very small neutrally charged molecule. It's small enough that it has the ability to cross cellular membranes, and cross the blood-brain barrier, allowing it to access DNA and mitochondria within our cells. Because of this, Molecular Hydrogen is an incredibly efficient antioxidant that can protect and reduce free radicals, and in turn suppress the oxidative stress that often leads to the progression of diseases.

Science refresher: Free radicals are uncharged or unstable molecules, which makes them highly reactive and extremely likely to cause damage by pulling apart (and destroying) other important molecules to gain their own stability. In their search for stability they can cause damage to your body. Free radicals are big bullies!

Antioxidants on the other hand, are neutrally charged and can safely scavenge, attract and stabilize those nasty free radicals, thereby reducing the amount of damage that they can cause.

Take a look at the list to your right, and see some of the incredible things that molecular hydrogen can do and provide for your body!

- CELLULAR HYDRATION
- IMPROVE CIRCULATION
- SORE MUSCLE RELIEF
- IMPROVED DIGESTION
- INCREASE ENERGY
- BOOST IMMUNE SYSTEM
- REDUCE CANCER RISK
- DISEASE PREVENTION
- CLEANSE KIDNEYS
- FLUSH TOXINS
- CLEANSE & DETOXYFY
- HEART HEALTH
- BONE HEALTH
- WEIGHT LOSS
- CLEARER SKIN
- REDUCE BRAIN FOG

#### BENEFITS OF ALKALIZED, IONIZED WATER

- High in antioxidants
- Balances the body's pH, which tends to be more acidic due to our lifestyle and environment
- Helps eliminate free radicals by neutralizing and removing them from the bloodstream
- Able to hydrate your body more quickly and effectively due to it's microclustering properties
- Enhances your energy levels
- Helps prevent premature aging
- Helps your detox pathways to perform efficiently

# SOME HEALTH BENEFITS OF MOLECULAR HYDROGEN

**Dr. Jill Carnahan is a leading Functional Medical Expert, and she has written an awesome blog listing the top 15 incredible health benefits of Molecular Hydrogen. These are such amazing benefits to be able to enjoy simply by drinking hydrogen-rich Kangen Water®.**

## **1. Hydrogen acts as an antioxidant:**

Hydrogen gas acts as powerful antioxidant and has been shown to protect cells from even the most cytotoxic reactive oxygen species. Specifically, inhalation of H<sub>2</sub> gas has been shown to suppress brain injuries through these effects.

## **2. Hydrogen supports your body's antioxidant system:**

H<sub>2</sub> supports your body's natural antioxidant system by signaling pathways associated with the prevention of disease.

## **3. Hydrogen is anti-inflammatory:**

In animal studies, hydrogen gas has been shown to be extremely anti-inflammatory. While we could use more studies on humans to back these initial findings, research on patients with rheumatoid arthritis are extremely promising.

## **4. Hydrogen may help reduce pain:**

As mentioned above, the effects of hydrogen on patients with rheumatoid arthritis have shown a significant decrease in pain. This pain relief is due to the reduction in oxidative stress caused by the anti-inflammatory and antioxidant properties of hydrogen gas.

## **5. Hydrogen protects your muscles:**

In an animal study, hydrogen water prevented muscle wasting in mice that had muscular dystrophy. Hydrogen also boosted the natural production of glutathione which is often called our master antioxidant. The effects of hydrogen on athletes and exercise is a promising area worth keeping your eye on.

## **6. Hydrogen can speed up sport-related recovery:**

Hydrogen water has been shown to reduce muscle fatigue in elite athletes after intense exercise. This is because it reduced lactic acid buildup, which improved muscle function.

## **7. Hydrogen can help balance the pH of the blood:**

Hydrogen water has also been shown to have an alkalinizing effect in the blood. This is especially beneficial to people who are extremely physically active because extreme exercise can cause metabolic acidosis.

# SOME HEALTH BENEFITS OF MOLECULAR HYDROGEN

## **8.Hydrogen affects cell modulation:**

Hydrogen appears to have effects in the cells that help them maintain homeostasis and healthy modulation. Through healthy gene expression and cellular metabolism, hydrogen positively affects cellular processes on many different levels.

## **9.Hydrogen is neuroprotective:**

Hydrogen has been shown to reduce damage to the brain in Parkinson's patients. It's also shown to have generally neuroprotective properties due to its ability to fight oxidative stress.

## **10.Hydrogen is protective against metabolic conditions:**

Studies have found that hydrogen increases insulin sensitivity, decreases blood sugar, and blood cholesterol levels. These effects make hydrogen a potential therapy for fighting obesity, diabetes, and metabolic syndrome.

## **11.Hydrogen boosts your mitochondria:**

Your mitochondria are the powerhouse of your cells, which makes them directly responsible for your energy levels day to day.

Clinical studies on hydrogen-rich water have found that it improves mitochondrial function.

## **12.Hydrogen protects against DNA damage:**

Hydrogen gas has been shown to significantly protect DNA against radiation damage. It does so by scavenging hydroxyl radical formation.

## **13.Hydrogen can calm allergic reactions:**

With allergies on the rise across the world, this is an interesting observation. Studies have found that in animals, hydrogen can sometimes calm allergic reactions. The way hydrogen appears to calm allergic reactions is by modulating cell processes and restoring homeostasis. It seems that hydrogen restores healthy processes throughout the body, which makes it a good idea for just about everyone to consider taking.

## **14.Hydrogen is protective against cancer:**

Hydrogen appears to be protective against cancer. At this point, it probably doesn't surprise you since you know how hydrogen can protect against oxidative stress and damage to the DNA. Hydrogen has also been observed to help reduce side effects of chemotherapy in some patients.

## **15.Hydrogen protects organs:**

Hydrogen has been observed to be protective against damage to numerous organs including the brain, pancreas, heart, liver, eyes, and lungs. This is believed to be because of hydrogen's anti-inflammatory, anti-apoptotic, and oxidative stress fighting effects.

# THE MEANING OF KANGEN

"Kangen means "return to origin" in Japanese. Kangen Water® is alkaline water produced by Enagic's alkaline ionizer and water filtration machines. For more than 45 years, Kangen Water® has been used in Japan to help restore the body to its original state of optimal health. These machines can transform your ordinary tap water into healthy, fresh tasting ionized alkaline drinking water. Kangen Water® is superior to tap and purified water." ~Enagic.com

## ONE MACHINE, 5 TYPES OF WATER

### **STRONG KANGEN WATER 11.5pH**

- Emulsifies Oil - Clean Food & More

### **Kangen Water 8.5 - 9.5pH**

- Healthy Drinking and Cooking

### **Clean Water 7.0 pH**

- Neutral; baby or medication

### **Beauty Water 5.5 pH**

- Skin, Hair, Plants, Cleaning

### **Strong Acid Water 2.5 pH**

- Disinfects, Kills Virus & Bacteria

**Strong  
Kangen Water  
pH 11.0**

**Kangen  
Water  
pH 8.5-9.5**

**NEUTRAL  
WATER  
pH 7.0**

**ACID  
Water  
pH 4.0-6.0**

**Strong  
Acid Water  
pH 2.7**

**In fact, there are over 100 different uses for the various pH levels of Kangen Water!**

You can see these in detail by visiting:

# SAVINGS & EARNINGS WITH KANGEN WATER

## HOW MUCH CAN YOU SAVE WITH A KANGEN WATER MACHINE?

*Save thousands on bottled/boxed water and cleaning chemicals annually by investing in a Kangen Water machine*

While the machine is an investment in itself retailing at \$4,980.00; it's a financial gift that keeps on giving. Over the lifetime of the machine (25+ years) you will save thousands of dollars on:

- **Cleaning chemicals** (the 2.5pH strong acidic water, aka hypochlorous acid water, replaces your disinfectants and surface cleaners) meaning you no longer have to invest in expensive, toxic chemicals. Evidence supporting hypochlorous acid and its effectiveness at sterilizing and disinfecting against viral and bacterial strains can be found in the many peer reviewed medical journals online (PubMed).
- **Bottled/boxed water**, is incredibly acidic in pH which is not only bad for the body, but also for the environment. Business Insider called bottled water "one of the biggest scams of the century". The multi-billion-dollar industry supports the distribution of what is, in 80% of cases, stale tap water and the production of thousands of tons of single use plastic. Boxed and bottled waters are simply bad for us and bad for the planet.

**Let's take a look at just how much you could save simply by no longer purchasing bottled water...**

# A TRUE COST COMPARISON KANGEN VS. BOTTLED WATER WATER

## The Cost of Bottled Water

In order to maintain proper hydration, it is recommended that we drink 50% of our body weight in ounces of water per day. For a 160 pound person, that would equal 80 ounces of water per day.

**Dasani Bottled Water = \$5.99 for a 24 pack of 16.9 oz bottles**  
 24 bottles \* 16.9oz = 405 oz  
 \$5.99 / 405 oz = \$0.015 per oz  
 \$0.015 per oz \* 80oz = **\$1.20 per day (per person)**

**Cost of Dasani over 1 year**  
 \$1.20 per day \* 365 days = **\$438 per year (per person)**

**Cost of Dasani Over 25+ year K8 Life Expectancy**  
 \* family of 1 = \$438 per year \* 1 person \* 25 years = **\$10,950**  
 \* family of 2 = \$438 per year \* 2 people \* 25 years = **\$21,900**  
 \* family of 4 = \$438 per year \* 4 people \* 25 years = **\$43,800**

\* All prices in US Dollars

## The Cost of Bottled Water

In order to maintain proper hydration, it is recommended that we drink 50% of our body weight in ounces of water per day. For a 160 pound person, that would equal 80 ounces of water per day.

**Essentia Bottled Water = \$24.99 for a 12 pack of 33.8oz bottles**  
 12 bottles \* 33.8oz = 405 oz  
 \$24.99 / 405 oz = \$0.06 per oz  
 \$0.06 per oz \* 80oz = **\$4.80 per day (per person)**

**Cost of Essentia over 1 year**  
 \$4.80 per day \* 365 days = **\$1,679 per year (per person)**

**Cost of Essentia Over 25+ year K8 Life Expectancy**  
 \* family of 1 = \$1,679 per year \* 1 person \* 25 years = **\$41,975**  
 \* family of 2 = \$1,679 per year \* 2 people \* 25 years = **\$83,950**  
 \* family of 4 = \$1,679 per year \* 4 people \* 25 years = **\$167,900**

\* All prices in US Dollars

# A TRUE COST COMPARISON KANGEN VS. BOTTLED WATER WATER

## The True Cost of a Machine

**LEVELUK K8 IONIZER**

\* All prices in US Dollars

**K8 Machine Investment: \$4,980 USD**

**Life Expectancy of Machine = 25 + years.**

**Cost per year =**  
 $\$4,980 / 25 \text{ years} = \text{\$199.20 per year}$

**Cost per week =**  
 $\$199.20 / 52 \text{ weeks} = \text{\$3.83 per week}$

**Cost per day =**  
 $\$3.83 / 7 = \text{\$0.54 per day}$

**Total Combined Cost Per Day for Kangen =**  
 $\$0.54 + \$0.59 = \text{\$1.13/day}$

**Daily Cost for Accessories**  
 Filter replacement \$130  
 Cleaning & Electrolysis Solutions \$85  
 Total = \$215 per year / 365 = **\\$0.59 per day**

## The True Cost of a Machine

**Cost of Water over 25+ year K8 Machine Life Expectancy.** All prices in US Dollars

**Cost of Dasani per year**  
 \* family of 1 = **\$438**

**Cost over 25 Years**  
 \* family of 1 = **\$10,950**  
 \* family of 2 = **\$21,900**  
 \* family of 4 = **\$43,800**  
 \* family of 6 = **\$65,700**

**Cost of Essentia per year**  
 \* family of 1 = **\$1,679**

**Cost over 25 Years**  
 \* family of 1 = **\$41,975**  
 \* family of 2 = **\$83,950**  
 \* family of 4 = **\$167,900**  
 \* family of 6 = **\$251,850**

**Cost of Kangen K8 per year**  
 \* **Year 1:** \$7.39/day \* 365 = **\$2,697.35**  
 \* **Year 2:** \$7.39/day \* 365 = **\$2,697.35**  
 \* **Year 3-25:** \$0.59/day \* 365 = **\$215.35 per year for the rest of its lifespan**

**Cost over 25 Years**  
 \* family of 1 = **\$10,347**  
 \* family of 2 = **\$10,347**  
 \* family of 4 = **\$10,347**  
 \* family of 6 = **\$10,347**

**Combined Cost (Machine + Maintenance)**  
 Cost per Day = **\$1.13**  
 Cost per Month = **\$35**  
 Cost per Year = **\$414**

**LEVELUK K8 IONIZER**

# HOW MUCH CAN YOU EARN WITH KANGEN?

**With a Kangen Water machine, the sky is the limit when it comes to earning potential.**

When you invest in a machine, you get global distribution rights for life, no fees, no monthly quotas, and no de-ranking. Just an *ethical and sustainable way to earn an income from your Kangen Water machine.*

When you begin to share Kangen Water with the people around you; they will start to notice the difference in their performance, energy levels, sleep, mood and physical health, just as millions of others have all over the globe. Chances are *they'll want one for themselves* and as a Kangen water distributor, you can make that happen.

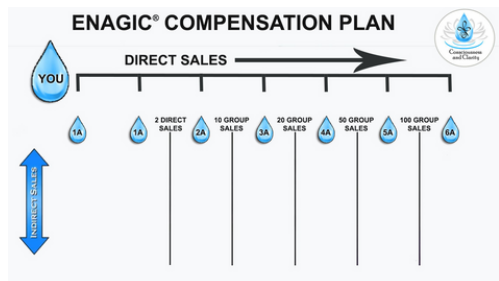

Enagic pays you up to 40% commission which is \$2,040 (USD) for every K8 Kangen water machine sold, and actually pays out about 54% in total commissions on their machines. They can do this because unlike many retail businesses, Enagic is a direct sales company - meaning they rely on distributors to share, educate, and promote their products.

Curious to learn more about Enagic's compensation plan and business model?

*Enagic's 8-point commission plan is patented meaning it's the only one of its kind in the world. No other company can replicate it. They have a channel based business model as shown above (and below) - and this allows you to earn commissions off both direct and indirect sales.*

# WHY SO MANY CHOOSE ENAGIC AND KANGEN WATER

**Quality workmanship ensuring a long life-span means this machine will provide you with medical grade, water quality association certified, ionized, alkalized, hydrogen-rich drinking water for 25+ years.**

The company Enagic is the mastermind behind Kangen water and have been manufacturing Kangen water machines for over 4 decades. Enagic is a Japanese based company that was founded in 1974 and they are the market leaders in the water ionization industry, setting the "gold standard" for water ionizers worldwide.

Enagic has based their company on three key cornerstones which they, their employees, and their distributors embody every day...

- 1) *Providing true physical health* - with clean, alkalized, ionized drinking water
- 2) *Providing true financial health* - through a patented business opportunity focused on wealth creation
- 3) *Realizing true mental and meta physical health* - through personal growth and finding contentment in all aspects of life

They have multiple certifications including a gold seal with the Water Quality Association, a gold seal in the prestigious Direct Selling Association and multiple business and environmental ethics certifications. While there are other cheaper water ionizers on the market, they have nowhere near the level of certification, sophistication and authentication when compared to Enagic, which really shows, you get what you pay for.

Many other ionization systems such as "Alkaviva" have lied about their own certifications and authentications deeming them highly unreliable. Many of these companies with "lifetime warranties" have simply gone out of business when their warranty claims got too high.

Enagic's Kangen Water machines are the *only* medical grade water filtration and ionization system on the market (recognized as a medical device in Japan), and their engineering methods and practices have been patented and protected, preventing other companies from replicating exactly what they're doing.

## WHY ENAGIC AND KANGEN WATER?

### 15 Reasons why Enagic and Kangen Water out-performs other water ionization systems

- 1.They are the only company with an ISO 13485 certification (Medical Grade)
- 2.Gold Seal award from WQA (Water Quality Association)
- 3.The only ionizer endorsed by 6,500 Japanese Doctors
- 4.Largest surface area of plates which means you have a greater charge going through the water vs. the competitions ionization systems. Competitors electrolysis plates are mesh and they have a smaller surface area.
- 5.Medical grade solid plates (99% purity) which leads to avoiding metal poisoning and leaching.
- 6.Company has been around for 50+ years, proven track record.
- 7.Enagic is an OEM company meaning everything is produced in-house, giving absolute and complete quality control.
- 8.Does not overheat within an hour of non-stop ionization
- 9.Biggest and fastest water flow flow rate (1 gallon / minute OR 6 litre/min)
- 10.Only ionizer producing up to 11.5pH & 2.5pH
- 11.Only ionizer with E-Cleaning System
- 12.Not affected by hard water
- 13.230 Watts ensures adequate power to power the electrolysis process and prevents overheating.
- 14.Long machine lifespan 25+ years
- 15.5 years warranty (Covers parts and labor)

# HOW TO INVEST IN A KANGEN WATER MACHINE

## INVESTING IN A KANGEN MACHINE

**The information in this document covers and explains all the benefits and reasons of why investing in Kangen Water machine will be one of the smartest decisions you could ever make.**

While I could write pages and pages about Kangen Water; there is nothing quite like trying it out for yourself. As an Enagic Independent Distributor, I can help you with any question(s) you have about the machine, the water, or about how you can create and build an additional stream of income to compliment your current lifestyle. I can also work with you to organize the purchase of your very own Kangen Water ionizer machine.

**The cost of Kangen's K8 Water Ionizer machine is \$4,980.00 excluding tax and shipping. They cost around \$200.00 a year to maintain and when cared for properly they last 25+ years.**

Enagic has pay-in-full as well as guaranteed financing options, and there are many affordable 3rd party financing options available as well - allowing everyone to access the magic of Kangen Water. If you're ready to learn more about Kangen Water, try it for yourself, or ready to invest in a machine, get in touch with me today and get ready to elevate and hydrate with Kangen Water. Change Your Water... Change Your Life!

# FILTRATION + IONIZATION

## MORE POWERFUL TOGETHER

Here are a few great reasons to filter your water before ionizing.

- While many of the contaminants in tap water are able to be filtered out by Kangen's internal carbon filter, some are not.
- While some bacteria, viruses, and fungi are destroyed during the electrolysis process, many are not.
- Impurities and contaminants in the source water can slow the flow of electricity in the water, making the ionization process less effective, resulting in less antioxidants in the electrolyzed-reduced water.
- Pre-filtering your water will extend the life of your Kangen ionizer's internal filter.
- Pre-filtering your water also protects against substances that eat away the platinum, which can create pitting and dramatically decrease the useful life of the electrolysis plates inside your Kangen ionizer.
- Using a pre-filter can also improve the taste of your Kangen Water.

If you're interested in drastically improving the quality of the drinking water in your home, then you will definitely want to consider the Multipure AquaPerform + Kangen K8 Duo!

### **FOR A LIMITED TIME: BUNDLE AND SAVE!**

Book your **DISCOVERY CALL TODAY** to save up to 50% off the purchase of your Multipure AquaPerform drinking water filtration system with the purchase of an Enagic Kangen K8 Ionizer!\*

\*Offer valid on paid-in-full purchase of Kangen K8 Ionizer Machine. Discount not applicable for K8 purchases made using Enagic Financing. Bundle & Save promotion provided by individual distributor, not Multipure or Enagic.

PLUS - enter the Multipure Discount Code **435008** at checkout to save an additional **5% on your entire purchase**, and be sure to ask about the monthly specials too!

Multipure systems work in conjunction with Kangen Ionizers, providing you, your family, and your pets water that you can drink with confidence and peace of mind, knowing that it's safe, healthy and delicious.

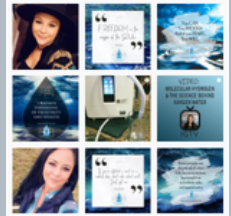

Enjoy best water on the planet, from the comfort of your own home.

## MY PURPOSE

I BELIEVE THAT SOCIETY HAS TRAINED US TO SETTLE FOR (AND EXPECT) AVERAGE AND MEDIOCRE, AND I BELIEVE THAT WE SIMPLY WERE NOT MEANT TO LIVE MEDIOCRE LIVES.

I BELIEVE THAT WE ARE MEANT TO CREATE FULFILLING, VIBRANT, ABUNDANT, INCREDIBLE LIVES, AND THAT THROUGH CHALLENGING THE STATUS-QUO, THROUGH LEARNING AND UNDERSTANDING, AND THROUGH SELF-DISCOVERY AND PERSONAL GROWTH WE ARE ABLE TO BREAK THROUGH AND ACHIEVE OUR HIGHEST POTENTIAL.

MY PURPOSE IS TO INSPIRE CHANGE, TO ENABLE GROWTH, AND TO CHALLENGE THE WAY YOU THINK ABOUT AND EXPERIENCE LIFE - MENTALLY, PHYSICALLY, AND FINANCIALLY - AND TO ENCOURAGE YOU TO BREAK THROUGH THE BARRIER OF "MEDIOCRE" IN YOUR LIFE!

IT'S TIME TO CHANGE YOUR REALITY AND GIVE UP BEING SICK AND TIRED.  
IT'S TIME TO INVEST IN YOURSELF, YOUR HEALTH, AND YOUR FUTURE.  
ITS TIME TO TAKE BACK YOUR FREEDOM.  
IT'S TIME TO START LIVING.

CHANGE YOUR WATER, CHANGE YOUR LIFE!

Carrie
